About Us

Godlan is a leading professional manufacturing services company that has been implementing integrated technology solutions since 1984. Godlan's manufacturing software implementation serves hundreds of customers across the US. As an approved Infor Gold Channel Partner, Godlan represents Infor's extended enterprise solutions. These solutions are offered in various technology platforms and support the implementation of world-class processes and practices throughout manufacturing organizations. Godlan has been honored with the prestigious Infor Partner of the Year Award, and a number of external awards such as the Global Top 100 VAR's in the Enterprise Solutions Market and the Inc5000 Fastest Growing Companies Award.

Top manufacturers choose Godlan to implement state-of-the-art manufacturing software and business processes because of the value we offer:

- The best implementation success experience - ZERO implementation failures, ever!
- Maximum out-of-the-box functionality
- Software training efficiencies, including online 24 x 7 availability
- Seasoned professionals focused on your business-specific issues
- A track record which demonstrates a strong commitment to your success
- Developing long-term relationships with our clients, not just transactions

Our world-class business software solutions include:

- Fully integrated ERP - CloudSuite Industrial (SyteLine)
- Comprehensive IoT / Smart Factory - designed to accelerate automation and predictive analysis
- Web-based CPQ (configuration) for dealers, distributors and channel sales
- Document management & automation
- Advanced MES
- Flexible deployment - SaaS (Cloud), on-premise, or a hybrid combination
- Cutting edge mobile access

With thousands of engagements and scores of satisfied reference customers, you can rest easy that excellence is a way of life at Godlan.

Godlan Capabilities

Business

Whether it is market penetration, material sourcing, lean manufacturing, cost reduction, or any other business improvement, Godlan understands what you need to succeed.

Professional

Godlan's staff maintains certifications in Microsoft technologies, Public Accounting, APICS, and Masters in Business Administration to name a few. We also represent 36+ years of hands-on engineering, management, information technology, operations, sales, finance, and software development experience with Manufacturing ERP, CPQ, & Industrial IoT systems.

Technical

Godlan consultants conduct Manufacturing Business Systems training and consulting, hardware assessment, custom programming, application and system integrations, hardware hosting, virtualization, network setup, web deployment, and more.

Your success, defined by you, is our focus.

- **Assess** your solution needs and objectives
- **Develop** plans to generate the results you seek
- **Deliver** solutions and services critical to your success
- **Measure** results and ROI

In the crowded and sometimes confusing world of enterprise software and consulting, you need a partner that you can believe in and count on.

Godlan. We've got you covered.
